JAN 31 2024

DOCKET NUMBER:

20240053

PUBLIC CONSENT ORDER

By agreement of the Georgia Composite Medical Board (“Board”) and CLIFTON LAVENHOUSE, JR, M.D. (“Respondent”), the following disposition of this disciplinary matter is entered pursuant to the provisions of the Georgia Administrative Procedure Act, O.C.G.A § 50-13-13 as amended.

FINDINGS OF FACT

1.

Respondent is licensed to practice medicine in the State of Georgia and was licensed to practice medicine at all times relevant to the Matters Asserted.

2.

On or about June 13, 2018, patient J.J. first visited Respondent to be evaluated for bilateral breast augmentation and liposuction.

3.

Following Respondent’s June 13, 2018 evaluation of patient J.J., she was scheduled to undergo bilateral breast augmentation and liposuction.

4.

On or about October 27, 2018, Respondent performed a revision mastopexy lift on J.J.

5.

Respondent noted on or about October 29, 2018, in J.J.'s medical records, during the patient's follow-up visit, that:

The patient is concerned about the somewhat high appearance of her NAC, on both sides. I instructed her that she was a couple days out and the breast will likely drop over time. Preoperatively she requested that her breast sit higher so that she would appear full at the top.

6.

Respondent also noted in J.J.'s October 29, 2018 post-operative follow-up records that:

Her dressings are clean and dry and intact. She has bilateral nipple windows of both breast dressing. The NAC appears normal in color bilaterally. She was instructed to leave her dressings in place for two weeks and continue her current postop care per written instructions.

Although she is only two days postop from her procedure, she made it clear while scheduling that she would have to return home the Monday following surgery because her work schedule would not permit a longer stay. Ideally, she would stay in town between 5-7 days. She is schedule to fly home this afternoon and will follow up via phone.

7.

Respondent alleges that he was not able to truly appreciate the extent of J.J.'s complications from the photographs she sent him.

8.

Respondent concluded that the surgical wounds' edges appeared intact and although the nipple had skin changes, he was not convinced that it was necrotic. As such, he decided to monitor the situation.

9.

On or about November 8, 2018, based on additional photographs sent by J.J., Respondent concluded that the surgical wound edges had begun to break down. As a result, he increased

J.J.'s antibiotic coverage and instructed the patient to perform wet to dry dressing, as he did not believe at that time that further surgical intervention would change the likely outcome.

10.

J.J. obtained a second opinion with a plastic surgeon in Tampa, Florida who believed that the entire nipple complex and some of the underlying breast tissue required debridement due to bilateral necrosis.

11.

The plastic surgeon advised J.J. follow-up with Respondent as he had performed the mastopexy.

12.

Respondent alleges that he advised J.J. to return to his office for wound management, but she informed him that she could not return at that time.

13.

According to Respondent's November 23, 2018 medical records, on or about November 22, 2018, the patient sent additional texts and photograph and expressed concerned that her wounds were getting worse.

14.

According to Respondent, the photographs showed that J.J.'s "left nipple had become smaller and there was a free flap on the medial edge."

15.

Respondent informed J.J. that he was concerned that the "tissue coverage we had to that point may be sheared off," so he advised her to return to the office as soon as possible.

16.

On or about November 23, 2018, Respondent performed “wound care with gentle debridement of the surrounding granulation tissue” on the right and left breast, then sutured what appeared to be viable areola to loosely approximate the edges to provide better protection to the healing tissue underneath.

17.

Sometime after this November 23, 2018 visit, J.J. followed up with the Tampa surgeon, who informed her that her nipples had become gangrenous, resulting in the removal of both nipples.

18.

Respondent’s treatment of J.J. was evaluated by a Board-appointed peer reviewer who concluded that Respondent’s care and treatment of J.J. departed from and failed to conform to the minimal standards of accepted and prevailing medical practice in the following ways:

- A. Respondent failed to document a history and physical exam of patient J.J. within 30 days prior to the October 27, 2018 mastopexy that he performed on J.J.;
- B. Respondent failed to examine and/or take into account J.J.’s prior surgical records from her 2013 breast augmentation surgery to determine how to preserve the blood supply to J.J.’s NAC, during the revision mastopexy Respondent did on J.J. on or about October 27, 2018;
- C. Respondent failed to document the level of J.J.’s sedation used throughout the surgeries;
- D. Respondent positioned J.J.’s NAC too high on her breast mounds and failed to document any consideration he may have given to the final nipple position;
- E. Respondent failed to timely identify J.J.’s nipple necrosis or impending nipple necrosis;
- F. Respondent failed to appropriately manage an/or respond to necrotic NAC;
- G. Respondent failed to document whether he encountered healthy bleeding tissue when he re-sutured J.J.’s necrotic areolar tissue to the surround breast skin.

19.

Respondent admits the above findings of fact, waives further findings, and agrees to the entry of this Order in order to resolve the pending allegations.

CONCLUSIONS OF LAW

ORDER

The Board, having considered the particular facts and circumstances of this case, hereby orders, and Respondent hereby agrees to the following:

3.

Should the Board determine that reasonable cause exists for imposing additional conditions and/or limitations on Respondent's right to engage in any breast related plastic surgery/breast related operative procedures in the State of Georgia, the Board shall notify Respondent in writing of its decision, including the reasons for its decision. Respondent may respond to such notifications in writing or request an appearance before the Board or its representative. However, should Respondent request an appearance before the Board or its representative, said appearance shall not be deemed a proceeding in a contested case, nor shall Respondent be entitled to any hearing as in a "contested case," as the term is defined in Chapter 13 of Title 50, the "Georgia Administrative Procedure Act" or as defined in O.C.G.A. § 43-34-9.

4.

In the event the Board denies Respondent's request to engage in any breast related plastic surgery/breast related operative procedures in the State of Georgia, Respondent may petition the Board every six (6) months thereafter. In any event, Respondent's right to engage in any breast related plastic surgery/breast related operative procedures in the State of Georgia as set forth in this Consent Order shall remain in effect pending the entry of a written order of the Board modifying or lifting the limitations as set forth in this Consent Order. The Respondent may be required to appear before the Board, or a committee thereof, in its consideration of his request to terminate probation. The Board shall be authorized to review and evaluate the practice of Respondent prior to lifting the probationary status of Respondent's license. At such time, the Board shall be authorized to restore all rights and privileges incident to the license of Respondent, unless it extends, maintains, or imposes such restrictions or conditions as the Board deems appropriate, based upon the information presented to it pursuant to this Consent Order or otherwise available to the Board. The Board shall notify Respondent of its intent to extend, maintain, or impose such restrictions or conditions beyond the

designated probationary period, and Respondent may respond to such notification in writing or request an appearance before the Board or its representatives as in a non-contested case. This Consent Order shall remain in effect pending a final determination by the Board and notification that the probationary period has terminated.

6.

For the duration of this Order, Respondent shall abide by all state and federal laws regulating the practice of medicine in the State of Georgia, the Rules and Regulations of the Georgia Composite Medical Board, and the terms of this Order. Should Respondent fail to so abide, his license may be further sanctioned or revoked, upon substantiation thereof.

Respondent must comply with the terms and conditions of the Consent Order beginning on the effective date.

12.

Approval of this Order by the Board shall in no way be construed as condoning Respondent's conduct and, except as provided herein, shall not be construed as a waiver of any of the lawful rights of the Board.
