Failure to provide written evidence of successful completion of the CME within six (6)
months of the effective date of this Consent Order shall be considered a violation of this Consent Order and shall result in further sanctioning of Respondent's license, upon substantiation thereof.

3.

In addition to and in conjunction with any other sanction contained herein, this Consent Order and dissemination thereof shall serve as a public reprimand of Respondent by the Georgia Board.

4.

BEFORE THE GEORGIA COMPOSITE MEDICAL BOARD

STATE OF GEORGIA

IN THE MATTER OF:

KELLAND KEITH JEFFORDS, JR., M.D.,
License No. 49041,
Respondent.

DOCKET NO.:

CONSENT ORDER

By Order of the Georgia Composite Medical Board ("Board") and Kelland Keith Jeffords, M.D., Respondent, the following disposition of this matter is entered pursuant to the following provisions of the Georgia Administrative Procedure Act, codified as O.C.G.A. § 50-13-13(a)(4).

2.

On or about February 26, 2020, the Board issued a confidential Order for Mental/Physical Examination to Respondent based on several grounds including the reporting of alleged incidents involving sexual misconduct and boundary violations related to his practice of medicine.

3.

Respondent was evaluated on or about August 25-27, 2020, by the Vanderbilt Comprehensive Assessment Program ("VCAP"), and the results of said evaluation were submitted to the Board on or about October 28, 2020. The evaluation concluded:

This evaluation is considered incomplete, as we are not prepared to opine upon Dr. Jeffords’ fitness to practice medicine without review of the records from Dr. Rashal’s [sic] evaluation in 2016. Dr. Jeffords refused consent for the release of the records and the Georgia Composite Medical Board cannot provide copies.

It is also notable that the results are inconclusive with respect to Dr. Jeffords’ diagnosis, especially considering his guardedness, limited information, his
defensive approach to testing, and the inconclusive result of polygraph testing. Concerns remain about potential boundary issues and pathological personality traits that need to be addressed. In addition, further neuropsychological assessment is indicated to rule-out the possibility of cognitive dysfunction as a contributing factor to these difficulties.

Thus, it is our recommendation that Dr. Jeffords participate in further evaluation, ideally on an inpatient basis, to clarify his fitness for practice, for diagnosis of boundary violation issues, and to clarify neuropsychological functioning. The record of the previous evaluation by Dr. Rashal [sic] must be made available to examiners.

4.

On or about March 16, 2021, the Board issued a subsequent Order for Mental/Physical Evaluation, based on the recommendations of the VCAP evaluation report.

5.

From June 14, 2021 to June 16, 2021, Respondent underwent an evaluation at Sante Center for Healing Licensed Professionals Program for the purpose of determining if Respondent was under any mental or physical condition that would render him unsafe to practice medicine. The result of that evaluation was a conclusion that Respondent was unsafe to practice medicine, due to ongoing concerns about boundary violation issues, as noted in the previous Vanderbilt evaluation. The evaluation team recommended monitoring, with treatment to address vulnerability boundary issues and sexual boundary violations as well as residential treatment in order to engage in therapy to assist Respondent in “acquiring the skills, self-awareness, and empathy to demonstrate the ability to articulate what transpired in his environment, within himself, and between him and the patient, and how the patient could have been affected by the boundary violation, as a minimal foundation to restoring fitness to practice.”
6.

As a result of this evaluation, on or about November 22, 2021, the Board ordered a summary suspension of Respondent’s license.

7.

After the imposition of the summary suspension, Respondent began treatment with a board-certified psychiatrist to address the issues that were the subject of the Board’s concerns.

ORDER

The Georgia Composite Medical Board, having considered the particular facts and circumstances of this case, hereby orders, and Respondent hereby agrees, that the summary suspension shall be lifted and that the following sanctions shall be imposed on Respondent’s license to practice as a physician in the State of Georgia.

1.

Beginning on the effective date of this Consent Order (hereinafter “Order”), Respondent’s license to practice as a physician in the State of Georgia shall placed on PROBATION, subject to the following terms:

(a) **CHAPERONE.** During the period of probation, Respondent shall have a chaperone present during all interactions with patients. Another individual present during each patient encounter shall satisfy the chaperone requirement. Respondent shall further be required to maintain written documentation that a chaperone was present during all patient interactions. The Board shall be authorized to request proof of compliance with this provision at any time with this provision, upon notice. Failure to timely comply with a request for information pursuant to this paragraph shall be deemed a violation of the Order.
(b) **TREATMENT.** During the period of probation, Respondent will continue treatment with his treating physician. Respondent shall supply a copy of this Consent Order to his treating physician. The treating physician shall submit monthly reports to the Board as to Respondent’s progress in treatment and confirm that Respondent remains safe to practice while complying with the terms of this order. Respondent shall comply with all directives from the treating physician, including participation in therapy as directed.

(c) **ABIDE BY LAWS, RULES, AND TERMS.** The Respondent shall abide by all State and Federal laws regulating the practice of medicine, the Rules and Regulations of the Board, and the terms of the Order. If the Respondent shall fail to abide by any of the terms of this Order, Respondent’s license shall be subject to discipline, including revocation, upon substantiation thereof after notice and hearing.

(d) **PETITION TO TERMINATE ORDER.** After two (2) years, Respondent shall be eligible to petition the Board to terminate the Order, by certifying under oath before a notary public that Respondent has complied with all conditions of this Order and submit a notarized statement from his treating physician that Respondent is safe to practice without the need for ongoing treatment. The Board shall review and evaluate Respondent’s performance under and compliance with this Order prior to terminating this Order. At such time, should the Board determine that reasonable cause exists for maintaining or adding any terms or conditions on Respondent’s license, the Board shall notify Respondent of its intent to continue or modify this Order to impose any terms deemed necessary at the time of the petition, and Respondent may respond to such notice in writing or request an appearance before the Board as in a non-contested case. This Order shall remain in effect pending a final determination by the Board and notification that it has been terminated.
2.

In addition to, and in conjunction with any other sanction contained herein, this Consent Order and dissemination thereof, shall serve as a **public reprimand** of Respondent by the Board.

3.

Respondent understands that pursuant to O.C.G.A. Title 43, Chapter 34A, the contents of this order shall be placed on Respondent’s Physician Profile. Furthermore, by executing this Consent Order, Respondent hereby agrees to permit the Board to update the Physician’s Profile reflecting this Consent Order.

4.

The effective date of this Consent Order is the date the Consent Order is docketed. Respondent should receive a docketed copy of the Consent Order from the Board at Respondent’s address of record within 10 business days of the docket date. If Respondent has not received a docketed copy of the Consent Order, it is Respondent’s responsibility to obtain a docketed copy of the Consent Order from the Board. Respondent must comply with the terms of the Consent Order beginning on the effective date.

5.

Respondent shall abide by all state and federal laws regulating the practice of medicine and relating to drugs, the Rules and Regulations of the Board, and the terms and conditions of this Consent Order. If Respondent shall fail to abide by such laws, rules, terms or conditions, Respondent’s license shall be subject to further discipline, including revocation, upon substantiation thereof after notice and hearing. Respondent further agrees that any violation of this Consent Order shall be deemed to be sufficient to authorize the Board to initiate further disciplinary action or to order summary suspension of Respondent’s license, pending further proceedings, pursuant to the provisions of the Georgia
Administrative Procedure Act, O.C.G.A. § 50-13-18(c)(1), or any other statute authorizing emergency action, but Respondent understands that Respondent shall be entitled to an expedited hearing to substantiate such violation, if the Board exercises such right.

6.

Respondent acknowledges that Respondent has read this Consent Order and understands its contents. Respondent understands that Respondent has the right to a hearing in this matter, and freely, knowingly and voluntarily waives such right by entering into this Consent Order. Respondent understands that this Consent Order will not become effective until approved and docketed by the Board. Respondent further understands and agrees that a representative of the Department of Law may be present during presentation of this Consent Order to the Board and that the Board shall have the authority to review the investigative file and all relevant evidence in considering this Consent Order. Respondent further understands that this Consent Order, once approved, shall constitute a public record that may be disseminated as a disciplinary action of the Board and will be reportable to the National Practitioner Data Bank. However, if the Consent Order is not approved, it shall not constitute an admission against interest in this proceeding or prejudice the right of the Board to adjudicate this matter. Respondent consents to the terms and conditions contained herein.
