Questions/Requests

COMPACT – What happens if an applicant does not comply with the Board’s requirements?

- a. Contact the COMPACT Commission regarding the State of Georgia’s (SOG) law requirements for licensure – submission of 3 reference forms, NPDB Report, CV, and Malpractice Questionnaire – and ask if the COMPACT Commission will take action against those physicians who do not comply with SOG’s requirements because the benefit flows through the COMPACT instead of the SOG.
- b. If the COMPACT Commission states they will not take action, then the Georgia Composite Medical Board will issue a Notice of Hearing indicating that the privilege afforded to physician(s) through the COMPACT should be revoked when physician(s) do not comply with the requirements which the SOG has demanded.

NURSE PROTOCOL ADVISORY COMMITTEE

Dr. Norman presented the Nurse Protocol Report:

The Board took the following actions:

The Committee recommended the following:

1. What are the requirements for a psychiatric DNP for her supervision? Also, we have a Pediatric NP...does her peer review have to be done by a Pediatric NP versus just an NP? **Chief Medical Officer question is for Board of Nursing and peer review should be only if there is an issue.**
2. My name is Monica Castro. I am interested in starting my own IV hydration and injection mobile spa. **Need an agreement in order to operate and should have a delegating with specialty such as Family, Primary, Internal, and or Emergency.**
3. I would like detailed information on starting and operation of a IV Hydration business or program in the state of Georgia. **Need an agreement in order to operate and should have a delegating with specialty such as Family, Primary, Internal, and or Emergency**
4. I will be administering Botox and filler but not writing prescriptions. From what I read, I do not need a DEA number and only need to submit a nurse protocol agreement if I am writing prescriptions. **NP needs a collaborating agreement and Form C in order to administer Botox. Botox is considered prescribing.**
5. Question about prescriptions for Stimulants considered scheduled 2N drugs. Where can I find the policy on whether I am allowed to prescribe them. I see ADHD children and ADD adults who sometimes have a need for stimulants. **NP is not allowed to prescribe the stimulants and Schedule IIs.**

Georgia Composite Medical Board Minutes of the August 5, 2021 Meeting

6. As inpatient nurse practitioners we often prescribe schedule I and schedule II medications during a patient's hospital stay. These orders are all co-signed by our physicians who are rounding that day. The medications in question for RSI would be etomidate, rocuronium, succinylcholine, midazolam, atropine, and Propofol. These would administer only in the inpatient setting, and we would not be prescribing these medications otherwise. However, our supervising physicians will be at a remote location. Are we still covered at APRNs legally if this is delineated in our protocol agreement? **Schedule I drugs cannot be prescribed. The medication describe in questions can be ordered under a physician in a hospital setting.**

7. With the Opioid Crisis, it looks like the Federal Gov-DEA has made changes regarding the requirement of waivers to prescribe Buprenorphine (Suboxone). They also show that NP's holding schedule III/IIIN DEA's can now prescribe this medication. My question is what is GA rules regarding this? **NP must have a special certificate for Buprenorphine and may find the waiver and instruction on website Samshon.gov to complete the waiver.**
