Georgia Composite Medical Board Minutes of the May 6, 2021 Meeting

Request from Stephanie Saladino, whether the Board has interpreted or has issued any guidance regarding the definition of an “FDA-approved treatment” under the Georgia Right to Try Act (Ga. Code 31-52-4). Specifically, we want to understand whether the term “FDA-approved treatment” includes **surgical procedures** as well as therapeutics. The Board referred Ms. Saladino to Department of Community Health for a response, since this is not in the Board’s laws or rules.

Request from Christy Hembree searching for information on Radiology Practitioner Assistants (RPAs). We need information regarding GA law in the hospital setting (IP/OP/ER). The Board referred the request to the Rules Committee.

Request from the Wisconsin Board of Medicine, which is currently undertaking a review of licensees (physicians, physician assistants, etc.) who are practicing what is being referred to as “Functional Medicine” (including but not limited to Platelet Rich Plasma injections, and Bio-Identical Hormone Replacement therapy). The Board is interested in the position, if any, of other State Medical Boards, and relevant agencies such as FSMB with regard to this type of practice and whether it is within the scope of acceptable practice of medicine and surgery and within the standard of care of such practice. The Board has not had any issues with this practice.
