NURSE PROTOCOL ADVISORY COMMITTEE

Dr. Gross presented the Nurse Protocol Report:

The Board took the following actions:

- I. Sydnee Allison, Director of Human Resources at Reliant Medical Associates. We are looking to expand into the state of Georgia for telemedicine. The APRN's address should be their

**Georgia Composite Medical Board
Minutes of the August 6, 2020**

mailing/residential address, not the practice address correct? On various forms such as the Protocol Agreement, Registration Form, and Form A it asks for various addresses for the Primary Practice Address and the Practice Locations- **For safety reasons advise APRN to use the practice address.**

The following questions have been referred to the Attorney General Office for a response.

1. Would it be appropriate to put the main headquarters address for the Primary Practice Site information and add that this is for "Telemedicine"? Our headquarters is not based in the state of Georgia, so we are unsure if that would be acceptable?
2. If using our corporate address is not acceptable, would the Physician and APRN list their personal address where they are physically conducting the telehealth visits?
3. Will it be acceptable if their personal address is not located in Georgia because they live out of state, but hold a Georgia license?

I am referring to the requirement that “the delegating physician shall document and maintain a record of onsite observation and review of medical records on a quarterly basis to monitor quality of care being provided to the patients” (Rule 360-32-.05). For nurses practicing via telehealth, can the “onsite observation” requirement Be conducted via telehealth? Yes. The statute does not differentiate.

- II. I am a physician looking into arranging nurse collaboration supervisory agreements for nurse practitioners in non-treating roles in Georgia. I am not currently located in Georgia, but I do have an office location in Georgia. Would this be acceptable? I have heard different answers and wanted to clarify before proceeding with the medical board. **Define non-treating (clarify the role). If will be doing the role of just a nurse does not need a protocol for non-treating.**
