### **NURSE PROTOCOL ADVISORY COMMITTEE**

Dr. Gross presented the Nurse Protocol Report:

The Board took the following actions:

1. I would like to know if a collaborative agreement is required between Psychiatric Nurse Practitioners and Psychiatrists in Georgia particularly at the VA. **APRN's do not need a protocol when they are working for the VA.**
2. We had a few additional questions regarding NP/PA Collaboration specifically related to the Physician Orders for Life Sustaining Treatment (POLST). 1) Are both the NP & PA authorized to sign the POLST in the state of Georgia? 2) If the answer is no, can the physician delegate authority to the NP through the collaboration agreement? Please advise. **Refer this question to the Attorney General's Office for a response.**
3. Can a family practice physician supervise a wound care nurse? Are there requirements that the FP perform wound care on a regular basis? **Yes, if it's within the physician's scope of practice. The FP would have to do wound care on a regular basis.**

## Georgia Composite Medical Board Minutes of the July 9, 2020 Meeting

4. Do you know if a provider chooses to act as a designated physician does it impact their malpractice or increase their liabilities in anyway? **Refer this question to their malpractice carrier.**
5. Do I prescribe meds if no specific nurse protocol covers choice of med issued? For example, I determine someone has symptoms of UTI and UA suggests such... I issue Bactrim from med room. Did I prescribe this medication or dispense it? Do I need a collaborative agreement in order to issue meds that are available on my work site? **Refer this question to the Attorney General's Office.**
6. Our NP's and PA's do not have DEA's. Some services do not write prescriptions at all; some services only write prescriptions for non-controlled substances (like Zantac) when babies are discharged home from the NICU. I need to understand which law they fall under (or do some fall under -23 and others fall under -25?):
  - OCGA 43-34-23 is the GA law regarding nurse protocol agreements without prescriptive authority. If the APRN/NP is not prescribing (consult services, Critical Care, NNP), the **NPA DOES NOT GO TO THE MEDICAL BOARD**. Our NPs complete the Children's Nurse Protocol Agreement without Prescriptive Authority. A copy remains on site and a copy goes to the Credentialing Services. The agreement clearly states the NP will not be prescribing.
  - OCGA 43-34-25 is the GA law regarding nurse protocol agreement with prescriptive authority. Prescriptive Authority is approved by the Georgia Composite Medical Board. If the NP calls in prescriptions or e-prescribes using their NPI number, the NP **MUST** have prescriptive authority approval by the Georgia Composite Medical Board. **Anyone that is writing a prescription would need to file a protocol agreement with the Board whether it is a controlled or non-controlled substance because they are prescribing. The agreements would fall under rule OCGA 43-34-25. If an NP is writing an order under a facility, then it would fall under rule OCGA 43-34-23.**
