NURSE PROTOCOL ADVISORY COMMITTEE

Dr. Gross presented the Nurse Protocol Report:

The Board took the following actions:

1. The Committee will work on updating the Rules in light of SB 321.
2. FAQs – may we add information about the VA/Government employees and whether they need a protocol? **The FAQ’s will be updated to include this language.**
3. Questions regarding NP/PA Collaboration specifically related to the Physician Orders for Life Sustaining Treatment (POLST). 1) Are both the NP & PA authorized to sign the POLST in the state of Georgia? 2) **Refer to the Department of Public Health.**
4. I issue Bactrim from med room. Did I prescribe this medication or dispense it? That is important to determination of whether I should be working yet without a collaborative agreement signed? This is a federal organization; so, do they have to be the “prescribing physician” in GEORGIA? They said they don’t have a state specific dispensing arrangement on file (to my understanding) with state of GA? They are federal. Do I need a collaborative agreement in order to issue meds that are available on my work site. **If you are working and dispensing OTC and prescription medication in a Federal facility you need a collaborating agreement. The NP should be operating under a protocol agreement whether they will be dispensing, prescribing or issuing medications.**
5. Would it be appropriate to put the main headquarters address for the Primary Practice Site information and add that this is for "Telemedicine"? Our headquarters is not based in the state of Georgia, so we are unsure if that would be acceptable? **The corporate address provides no helpful information for the Board. If the NP nor the delegating physician are in Georgia, then telehealth services cannot be provided.**

**Georgia Composite Medical Board
Minutes of the September 3, 2020 Meeting**

6. I am referring to the requirement that “the delegating physician shall document and maintain a record of onsite observation and review of medical records on a quarterly basis to monitor quality of care being provided to the patients” (Rule 360-32-.05). For nurses practicing via telehealth, can the “onsite observation” requirement Be conducted via telehealth? **No, the delegating physician must conduct the onsite observations at the practice location not via telehealth.**

The following Form C’s were approved:

- ❖ Brunson, Robert
- ❖ Chausmer, Jaimie
- ❖ Register, Caitlyn
- ❖ Spears, Melanie
- ❖ Whitten, Sarah
