Question/Request:

Petition for Exception to USMLE Attempt Limit Policy – effective July 2021.

1. The USMLE Program limits the total number of times an examinee can take a USMLE Step. An examinee is ineligible to take a Step if the examinee has made four or more prior attempts to pass that Step, including incomplete attempts.
2. The only exception to the attempt limit policy identified by the USMLE Composite Committee allows for one additional attempt beyond the four-attempt limit at the explicit request of a medical licensing authority, this policy exception recognizes that USMLE is intended to support state medical boards' licensing decisions. Therefore, the program will accept a request from a medical

licensing authority to allow one additional attempt for an individual who would be eligible to become licensed in that jurisdiction if they passed that Step after more than four attempts and go on to meet all other licensure requirements.

3. Transcripts supplied by the examinee are not official and should not be accepted for sponsorship. The Georgia Composite Medical Board must review an official transcript sent directly from FSMB to the board, prior to completing the USMLE request form.

NURSE PROTOCOL ADVISORY COMMITTEE REPORT

Dr. Gross presented the APRN Committee Report as a motion. Dr. Marshall seconded, and the motion carried unanimously. The Board took the following actions:

Other Business:

Sandra Bailey from the Attorney General's Office spoke about a court decision concerning a Nurse Practitioner.

Questions:

1. I have a nurse practitioner client that is going to operate a mobile medical practice. What should she put as her primary practice location if she doesn't have a physical practice location? **There must be a physical location, maybe the address on the license. Further information will be needed as to what the clinic will look like before a definitive answer can be given.**

2. I am currently performing bio identical hormone pellet therapy. I am not writing any prescriptions for controlled substances, but I am placing testosterone pellets under the skin. Would this require quarterly chart reviews or annually because I'm not writing any controlled prescriptions? (We already have an approved form C) I was just inquiring about the MD chart audit requirements. If I am using a controlled medication in the procedure, do I need to have those charts audited quarterly or no because I'm technically not prescribing the medication? **The APRN would need an approved protocol agreement. If the APRN is placing testosterone pellets under the skin, they'll need a Form C for that procedure. Yes, quarterly reports and visits are needed as per the rules. The APRN should make sure that they are authorized to prescribe the substances (controlled medication).**

3. I am an attorney representing a client in Georgia and doing due diligence on her behalf. I would like to present a question before the board for clarification. My client is an APRN licensed in the state of Georgia. We are specifically seeking clarification on whether the delegating physician she intends to enter into an agreement with for her medical spa can also serve as her medical director if my APRN client intends to be the sole owner of the medical spa. Please excuse me if this is codified somewhere as I have been unable to locate where and have only seen this issue addressed briefly within BOD minutes. **The delegating physician cannot serve as the APRN's medical director. Refer to OCGA 43-34-25.**

The following Form Cs were approved:
