Request for Predetermination of documents and Waiver or Variance of Rules

Daniel Lincoln/Dr. Rizk Robin – requesting documents be predetermined for licensure and to waive rule requirement of having to reside in the US for one year.

Response

The Georgia Composite Medical Board does not provide predetermination decisions on documents, but on the submitted application, required forms and documents, and fee. The Board is not able to review the submitted petition as it was not posted to the registry. In addition, the petition is not valid as the requirement in 360-2-.01(h) is also in statute, O.C.G.A. § 43-34-27, and therefore cannot be waived.

**NURSE PROTOCOL ADVISORY COMMITTEE REPORT**

Dr. Gross presented the APRN Committee Report as a motion. Dr. Marshall seconded. The motion carried unanimously. The Board took the following actions:

**Questions/Correspondence:**

**Correspondence from Fatima Engineer:**

(1) Inquiry regarding NP ability to prescribe Schedule II controlled substances.

Response: NPs do not have the ability to prescribe Schedule II controlled substances in Georgia, and such authority cannot be delegated via protocol except for hydrocodone, oxycodone, or compounds thereof in emergency situations under specific conditions. See O.C.G.A. § 43-34-25(d.1).

(2) Does an NP or PA practicing in mental health need to enter a protocol with a psychiatrist, or can it be with a physician with a similar specialty (i.e., family medicine/internal medicine physician with a background in mental health)?

Response: The scenario presented would be considered so long as the physician is regularly engaged in the practice of mental health.

**Correspondence from Julia Thorne:**

(1) A training company in Atlanta plans to offer neurotoxin injection courses under the supervision of an off-site MD. They want me to review model history forms and photographs to

**Georgia Composite Medical Board  
Meeting Minutes from April 03, 2025**

determine suitability for treatment and prescribe appropriate dosing for trainees to administer. I'm seeking clarification on whether this process meets the Board's requirement for a medical history and physical exam.

Response: The scenario presented, asynchronous telehealth/store-and-forward telemedicine, would not comply with the requirement for an examination of the patient prior to the issuance of the prescription. The examination must be a dynamic assessment. At a minimum, a telehealth appointment with real-time live video would be required. See Board Rule 360-3-.07 and Board of Nursing Position Statement: Cosmetic/Aesthetic Procedures.

(2) For RN's (and APRNs) who hold a compact license, as long as there is direct physician supervision by a GA licensed MD at the training, would they be permitted to inject under their RN compact license following the same rules that the Board has already set for RN injectors (assessment and prescription by GA licensed prescriber (APRN, PA, MD))?

Response: This question will need to be answered by the Georgia Board of Nursing. In addition, in the first question, the statement was made that the supervising physician would not be onsite; this is the opposite of direct physician supervision.

**The following Form Cs were approved:**

- Lorena Murphy- Neurotoxin Admin.
- Charles Martin- Lumbar Puncture
- Daniel Williamson – Arterial Line
- Maria Tolcher – Neurotoxin Injection
- Maria Tolcher – Dermal Filler Injection
- Faith Causbey- IV Infusions
- Gail Marie Adjanasuknart- Bone Marrow Aspirate

**Georgia Composite Medical Board  
Meeting Minutes from April 03, 2025**

**RESPIRATORY CARE ADVISORY COMMITTEE REPORT**

Dr. Bhat presented the Respiratory Care Committee Report as a motion. Dr. Retterbush seconded, and the motion carried unanimously. The Board took the following actions:

Correspondence:

The requirement for a Letter of Recommendation from a Medical Director and Medical Director qualifications was removed from Rule 360-13-.01. However, O.C.G.A. § 43-34-144(b) still mandates that an RCP must work under the supervision or direction of a Georgia-licensed physician to obtain and maintain certification. The question is how does the Committee reconcile removing the medical director requirement while the law still requires physician supervision as part of licensure requirements.

Response: RRTs must always work under the supervision of a licensed physician. Legal Services will review current laws to determine if licensing requirements need revision. If a simpler solution is possible, the Board may create a new rule requiring applicants to submit a document identifying their supervising physician before they can begin working.

Dr. Bostock presented the Orthotist & Prosthetist Committee Report as a motion. Dr. Marshall seconded, and the motion carried unanimously. The Board took the following actions:

Correspondence from Carly Barnes and Nicole Lee re: Medicaid/Medicare credential renewal for Tanner's Breast Boutique. Does Georgia require an O&P license for artificial breasts/breast prosthetics?

Response: Pursuant to O.C.G.A. § 43-34-192(19), cosmetic devices such as artificial breasts are excluded from the definition of "Prosthesis" in Georgia and therefore an O&P license would not be required. GCMB and CMS have separate requirements. Based on the information provided, CMS is requiring either a Georgia O&P license or a BOC certified mastectomy fitter. This would need to be clarified with CMS.

Approved the following application for licensure:

William Harris
