The board will create a work group committee to handle matters such as practice changes, retirement, death, etc. to determine which parties are responsible for notifying patients and Board. Response: Table for additional research

**Georgia Composite Medical Board
Meeting Minutes from May 08, 2025**

Correspondence from Nnenna Onyeukwu

- (1) Are APRNs able to order medical imaging tests (x-rays), labs or conduct pap smears without delegation strictly for veterans and service members?
- (2) If the APRN works for a federal agency like the VA, are they mandated to obtain licensure in every state they perform a Compensation and Pension (C&P) exam or Physical Assessment?

Response: Request clarification. The correspondence does not definitively state that the APRNs are employees of the VA, which has its own rules and regulations.

Correspondence:

Dakesha Jackson, CRT: requesting board review RRT credential requirements required for RCP licensure in Georgia:

Response: The committee reviewed the requirement to obtain RRT credentials for RCP licensure in Georgia, as mandated by Rule 360-13-.01(4). The Committee reaffirmed that this rule was adopted to align with national efforts to advance the respiratory care profession and noted that Georgia is the ninth state to implement such a requirement. The individual was advised to contact her respiratory program director for guidance and to explore resources offered by AARC and GSRC for additional support. The Committee also noted that failure to obtain national credentials may negatively impact the performance metrics of the educational program the individual already completed.
