Board Committee researching Cosmetic Laser Safety Training Officer (CMLSO) to be approved providers of laser training courses

Add question #13 to the Laser FAQs which states -

13. Who can perform "laser" fat reduction (cryolipolysis and cavitation) and cosmetic procedures using radiofrequency, ultrasound, microwave, and other non-light based energy emitting devices?

Under Georgia law, these procedures may be performed by a physician, a physician assistant with an approved additional duty request, or an APRN as part of an approved nurse protocol agreement. These procedures are considered the practice of medicine and cannot be delegated to unlicensed individuals such as medical assistants. The Cosmetic Laser License does not provide actual authority under the law to use these devices, and recommends that at the very minimum, a physician be physically present on site when these devices are being utilized by licensees. Injuries caused by use of these devices in these circumstances may constitute practice below minimum standards.
