Minutes of the March 3, 2022, Meeting

CHAIR’S REPORT

Dr. Dalton took a headcount for the April 7, 2022, meeting (which will be held via TEAMS). Dr.

Dalton discussed House Bill 1453.

Dr. Dalton announced that former GCMB Executive Director Mrs. LaSharn Hughes would be awarded the Lifetime Achievement Award by the Federation of State Medical Boards at its annual meeting in April.

EXECUTIVE DIRECTOR’S REPORT

Mr. Dorsey shared the FSMB’s statement – “Opposes Legislative Efforts to Limit State Medical Boards’ Authority to Investigate Patient Harm.”

Mr. Dorsey also shared legislative and budget updates – AFY22 and FY23 budgets, HB 884, and HB 369.

Mr. Dorsey also presented a request for GCMB position/advisory opinion from the law firm Chilivis Grubman:

Whether a Georgia licensed physician violates Georgia’s Medical Practice Act (“MPA”) and/or Georgia Composite Medical Board (“Board”) rules and guidelines by delegating the performance of IV infusion therapy to Medical Assistants (“MAs”) when the MAs have IV Infusion Therapy Training and performs the IV infusion therapy service under the Direct Supervision of a Supervising Provider.

No, according to the Rules of GCMB, medical assistants do not have the authority to perform such acts, and by doing so, the Board could take action against the delegating physician’s license.

NURSE PROTOCOL ADVISORY COMMITTEE REPORT

Dr. Norman presented the APRN Committee Report as a motion. Dr. Bhat seconded, and the motion carried unanimously. The Board took the following actions:

The Committee recommended the following:

1. I'm just getting started with opening a Mobile laboratory performing CLIA waived Labs and doing DOT physicals. A few people have asked me if I can be their Laboratory Director. I just need to know if this is in my scope of practice. Is it within my scope of practice to order basic lab tests? If either of the two are allowed, how many people can I be a lab director for at any given time?

Answer: Refer this question to the Nursing Board.

2. I am an FNP candidate from Georgia College graduating this Spring interviewing with a physician group where my job duties will include work in the OR. I have had a few colleagues and one perspective employer tell me that the Georgia Medical Board updated the APRN Protocol Agreement recently which prohibits FNP's from working in the OR. Only Acute Care NP's can work in an OR setting. After reviewing the FAQ's and other resources on the Georgia Medical Board website I believe there is a route for me to work in the OR as an FNP, I will just need additional on-the-job training, certification, or education. Can you please advise if the following is accurate? Additionally, if you can recommend any certifications, training courses, or other resources that would assist me in entering a protocol agreement with a specialty practice physician it would be greatly appreciated. Thanks, and I look forward to hearing from you!
 - ❖ A surgeon is considered a "specialty practice physician"
 - ❖ As an FNP my education does not "qualify" as a compatible specialty to work with a surgeon
 - ❖ I can enter into a protocol agreement with a specialty practice physician and only perform the Primary Care portion of the practice while undergoing on-the-job training for the specialty. The on-the-job specialty training requirements are outlined on Form C which requires a minimum of 10 supervised procedures and 10 unsupervised procedures.

Answer: As an NP, it's allowed to be a first assist. If the NP will be closing cases, that is not allowed.

3. Dr. Gates- Review Nicole Mitchell's file.

Answer: The physician's license is unrestricted in Georgia, therefore, the Committee decided that it was appropriate to accept the protocol agreement.

The following Form C's were approved:

- Adjei, Vincentia - Trigger Point injections
- Andress, Alexis
- Berry, Amanda
