The committee discussed privilege renewals and requested additional information from staff.

The Board discussed this matter further. Ms. Emm informed the Board that the privilege is attached to the physician's license however, if there is any disruption to the renewal of the license, then the connection is severed. If a renewal is placed on hold for any reason, staff should ensure that the privilege is renewed if the license is renewed. Likewise, the physician needs to ensure they renew on time (prior to the expiration date) or if they renew during the late renewal period, then they need to reach out to the Board office to renew their privilege manually. Either way, the physician is responsible for monitoring all expiration dates through their licensee portal and/or the public verification website. The Board recommended that the Acupuncture FAQs be updated with this information.

**APPEARANCES BEFORE THE BOARD**

Dr. Clarence Sutton, MD appeared before the board to appeal the Board's decision to deny licensure based on failure to comply with a child support order. During the discussion the Board realized that Dr. Sutton's denial letter was missing the following denial reasons: disciplinary action taken against him by another state and a criminal conviction. The Board informed Dr. Sutton that his application was denied on the above referenced grounds in addition to the child support matter.

Dr. Retterbush made a motion, seconded by Dr. Flint, to uphold original denial of licensure. The motion carried unanimously.
