(3) "To practice medicine," "the practice of medicine," or "practicing medicine" shall have the same meaning as in paragraph (3) of Code Section 43-34-21.

HISTORY: Code 1981, § 43-34-1, enacted by Ga. L. 2009, p. 859, § 1/HB 509.

Eleven of the 13 physician members shall be graduates of reputable medical schools conferring the M.D. degree; the other two physician members shall be graduates of reputable osteopathic medical schools conferring the D.O. degree. All of the physician members shall have been engaged in the active practice of their profession within this state for a period of at least five years prior to their appointment. Any vacancy occurring in a post held by a holder of the D.O. degree shall be filled by a D.O. and any vacancy occurring in a post held by an M.D. degree shall be filled by an M.D.

(c) The fourteenth and fifteenth members of the board shall have no connection whatsoever with the practice of medicine and may vote only on matters relating to administration and policy which do not directly relate to practical and scientific examination of physicians in this state.

(d) Any member of the board may be removed from his or her position and generate an open position on the board:

(1) By a majority vote of the members of the board if a member of the board misses three or more consecutive meetings or misses more than one-third of all meetings including meetings conducted by teleconference, without a valid medical reason or reasons deemed excusable, which removal shall not be effective unless approved by the Governor; or

§ 43-34-8. Authority to refuse license, certificate, or permit or issue discipline; suspension; restoration; enforcement investigations; evidentiary privileges; closed hearings; immunity for reporting violations; when investigation or assessment of fitness to practice required; failure to appear; publication of final disciplinary actions

(a) The board shall have authority to refuse to grant a license, certificate, or permit to an applicant or to discipline a person regulated under this chapter or any antecedent law upon a finding by the board that the licensee, certificate holder, or permit holder or applicant has:

(1) Failed to demonstrate the qualifications or standards for a license, certificate, or permit contained in this chapter or in the rules and regulations of the board. It shall be incumbent upon the applicant to demonstrate to the satisfaction of the board that he or she meets all requirements for the issuance of a license; and, if the board is not satisfied as to the applicant's qualifications, it shall not issue a license, certificate, or permit;

(2) Knowingly made misleading, deceptive, untrue, or fraudulent representations in the practice of a profession licensed, certified, or permitted under this chapter or in any document connected therewith, or practiced fraud or deceit or intentionally made any false statement in obtaining a license, certificate, or permit under this chapter to practice pursuant to this chapter, or made a false statement or deceptive registration with the board;

(3) Been convicted of a felony in the courts of this state or any other state, territory, country, or of the United States. As used in this paragraph, the term "conviction of a felony" shall include a conviction of an offense which if committed in this state would be deemed a felony under either state or federal law, without regard to its designation elsewhere. As used in this paragraph, the term "conviction" shall include a finding or verdict of guilt, a plea of guilty resulting in first offender status, or a plea of nolo contendere in a criminal proceeding, regardless of whether the adjudication of guilt or sentence is withheld or not entered thereon;

(4) Committed a crime involving moral turpitude, without regard to conviction; the conviction of a crime involving moral turpitude shall be evidence of the commission of such crime. As used in this paragraph, the term "conviction" shall have the meaning prescribed in paragraph (3) of this subsection. For the purpose of this chapter, a conviction or plea of guilty or of nolo contendere to a charge or indictment by either federal or state government for income tax evasion shall not be considered a crime involving moral turpitude;

(5) Had his or her license, certificate, or permit to practice pursuant to this chapter revoked, suspended, or annulled by any lawful licensing authority; or had other disciplinary action taken against him or her by any lawful licensing authority; or been denied a license by any lawful licensing authority;

(7) Engaged in any unprofessional, unethical, deceptive, or deleterious conduct or practice harmful to the public, which conduct or practice need not have resulted in actual injury to any person. As used in this paragraph, the term "unprofessional conduct" shall include any departure from, or failure to conform to, the minimum standards of acceptable and prevailing medical practice and shall also include, but not be limited to, the prescribing or use of drugs, treatment, or diagnostic procedures which are detrimental to the patient as determined by the minimum standards of acceptable and prevailing medical practice or by rule of the board;

(8) Performed, procured, or aided or abetted in performing or procuring a criminal abortion;

(10) Violated or attempted to violate a law, rule, or regulation of this state, any other state, the board, the United States, or any other lawful authority without regard to whether the violation is criminally punishable, which law, rule, or regulation relates to or in part regulates the practice of medicine, when the licensee or applicant knows or should know that such action is violative of such law, rule, or regulation; or violated a lawful order of the board, previously entered by the board in a disciplinary hearing;

(11) Committed any act or omission which is indicative of bad moral character or untrustworthiness;

(12) Been adjudged mentally incompetent by a court of competent jurisdiction, within or outside this state. Any such adjudication shall automatically suspend the license, certificate, or permit of any such person and shall prevent the reissuance or renewal of any license, certificate, or permit so suspended for as long as the adjudication of incompetence is in effect unless the board, upon a finding that the licensee, certificate holder, or permit holder is mentally competent, orders otherwise. Any applicant who has been so adjudged to be mentally incompetent shall not receive a license, certificate, or permit unless the board, upon a finding that the applicant is mentally competent, orders otherwise;

(A) In enforcing this paragraph the board may, upon reasonable grounds, require a licensee, certificate holder, permit holder, or applicant to submit to a mental or physical examination by physicians designated by the board. The expense of this examination shall be borne by the licensee, certificate holder, or permit holder or applicant. The results of such examination shall be admissible in any hearing before the board, notwithstanding any claim of privilege under a contrary rule of law or statute, including, but not limited to, Code Section 24-9-21. Every person who shall accept the privilege of practicing a profession regulated under this chapter or who shall file an application for a license to practice a profession regulated under this chapter in this state shall be deemed to have given his or her consent to submit to such mental or physical examination and to have waived all objections to the admissibility of the results in any hearing before the board, upon the grounds that the same constitutes a privileged communication. If a licensee, certificate holder, or permit holder or applicant fails to submit to such an examination when properly directed to do so by the board, unless such failure was due to circumstances beyond his or her control, the board may enter a final order upon proper notice, hearing, and proof of such refusal. Any licensee, certificate holder, permit holder, or applicant who is prohibited from practicing pursuant to this chapter under this paragraph shall at reasonable intervals be afforded an opportunity to demonstrate to the board that he or she can resume or begin practice pursuant to this chapter with reasonable skill and safety to patients;

(B) For the purposes of this paragraph, the board may, upon reasonable grounds, obtain any and all records relating to the mental or physical condition of a licensee, certificate holder, or permit holder or applicant, including psychiatric records; and such records shall be admissible in any hearing before the board, notwithstanding any privilege under a contrary rule of law or statute, including, but not limited to, Code Section 24-9-21. Every person who shall accept the privilege of practicing pursuant to this chapter in this state or who shall file an application to practice pursuant to this chapter in this state shall be deemed to have given his or her consent to the board's obtaining any such records and to have waived all objections to the admissibility of such records in any hearing before the board, upon the grounds that the same constitute a privileged communication; and

(C) If any licensee, certificate holder, or permit holder or applicant could, in the absence of this paragraph, invoke a privilege to prevent the disclosure of the results of the examination provided for in subparagraph (A) of this paragraph or the records relating to the mental or physical condition of such licensee, certificate holder, or permit holder or applicant obtained pursuant to subparagraph (B) of this paragraph, all such information shall be received by the board in camera and shall not be disclosed to the public, nor shall any part of the record containing such information be used against any licensee, certificate holder, or permit holder or applicant in any other type of proceeding;

(14) Cheated on or attempted to subvert an examination by the board;

(15) Committed an act of sexual abuse, misconduct, or exploitation of a patient including guardians and parents of minors;

(17) Entered into conduct which discredits the profession;

(18) Failed to furnish records, including, but not limited to, medical records, to the board in response to a subpoena or failed to answer questions on the renewal of the license, certificate, or permit;

(19) Failed to maintain appropriate medical or other records as required by board rule;

(20) Failed to follow generally accepted infection control procedures or Occupational Safety and Health Administration (OSHA) standards;

(21) Failed to comply with federal laws and standards relating to the practice of medicine or other health care profession regulated under this chapter, the regulations of drugs, the delivery of health care, or other related laws;

(22) Failed to comply with an order for child support as defined by Code Section 19-11-9.3; it shall be incumbent upon the applicant, licensee, certificate holder, or permit holder to supply a notice of release to the board from the appropriate child support authorities within the Department of Human Services indicating that the licensee, certificate holder, permit holder, or applicant has come into compliance with an order for child support so that a license, certificate, or permit may be issued if all other conditions for the issuance of a license, certificate, or permit are met;

(23) Failed to enter into satisfactory repayment status and is a borrower in default as defined by Code Section 20-3-295; it shall be incumbent upon the applicant, licensee, certificate holder, or permit holder to supply the notice of release to the board from the Georgia Higher Education Assistance Corporation indicating that the licensee, certificate holder, permit holder, or applicant has entered into satisfactory repayment status so that a license, certificate, or permit may be issued or granted if all other conditions for issuance of a license, certificate, or permit are met; or

(24) Except for practice settings identified in paragraph (7) of subsection (g) of Code Section 43-34-25 and arrangements approved by the board prior to July 1, 2009, as set forth in subsection (k) of Code Section 43-34-103, been a physician that has been or is employed by one the physician:

(2) In addition to and in conjunction with the actions enumerated pursuant to paragraph (1) of this subsection, the board may make a finding adverse to the licensee, certificate holder, permit holder, or applicant but withhold imposition of judgment and penalty; or it may impose the judgment and penalty but suspend enforcement thereof and place the licensee, certificate holder, permit holder, or applicant on probation, which probation may be vacated upon noncompliance with such reasonable terms as the board may impose.

(3) Neither the issuance of a private reprimand nor the denial of a license, certificate, or permit nor the denial of a request for reinstatement of a revoked license, certificate, or permit nor the refusal to issue a previously denied license, certificate, or permit shall be considered to be a contested case within the meaning of Chapter 13 of Title 50, the "Georgia Administrative Procedure Act"; notice and hearing within the meaning of said chapter shall not be required, but the applicant or licensee, certificate holder, or permit holder shall be allowed to appear before the board if he or she so requests. A board may resolve a pending action by the issuance of a letter of concern. Such letter shall not be considered a disciplinary action or a contested case under Chapter 13 of Title 50 and shall not be disclosed to any person except the holder of a license, certificate, or permit or an applicant.

(b.1) The board shall suspend the license, certificate, or permit of a person licensed by the board who has been certified by a federal agency and reported to the board for nonpayment or default or breach of a repayment or service obligation under any federal education loan, loan repayment, or service conditional scholarship program. Prior to the suspension, the licensee, certificate holder, or permit holder shall be entitled to notice of the board's intended action and opportunity to appear before the board according to procedures set forth in the board's rules and regulations. A suspension of a license, certificate, or permit under this subsection is not a contested case under Chapter 13 of Title 50, "Georgia Administrative Procedure Act." A license, certificate, or permit suspended under this Code section shall not be reinstated or reissued until the person provides the board a written release issued by the reporting agency stating that the person is making payments on the loan or satisfying the service requirements in accordance with an agreement approved by the reporting agency. If the person has continued to meet all other requirements for issuance of a license, certificate, or permit during the period of suspension, reinstatement of the license, certificate, or permit shall be automatic upon receipt of the notice and payment of any reinstatement fee which the board may impose.

(c) In its discretion, the board may restore and reissue a license, certificate, or permit issued under this chapter or any antecedent law and, as a condition thereof, may impose any disciplinary or corrective measure provided in this chapter.

(d) The executive director is vested with the power and authority to make, or cause to be made through employees or agents of the board, such investigations as he or she, or the board, or any district attorney may deem necessary or advisable in the enforcement of this chapter. Any person properly conducting an investigation on behalf of the board shall have access to and may examine any writing, document, or other material, except that as to which privilege has not been denied or deemed waived by this chapter, and which is deemed by the chairperson of the board, or vice chairperson if the chairperson is not available, to be related to the fitness of any licensee, certificate holder, permit holder, or applicant to practice pursuant to this chapter. The executive director or the chairperson of the board, or vice chairperson if the chairperson is not available, may issue subpoenas to compel such access. When a subpoena is disobeyed, the board may apply to the superior court of the county where the person to whom the subpoena is issued resides for an order requiring obedience. Failure to comply with such order shall be punishable as for contempt of court. The results of any investigations whatsoever shall be reported only to the board, and the records of such investigations shall be kept by the board; no part of any such record shall be released for any purpose other than a hearing before the board and as provided in Chapter 34A of this title; nor shall such records be subject to subpoena. The board shall be authorized to release records that are not otherwise confidential or privileged only to another state or federal enforcement agency or lawful licensing authority and such release shall not alter the confidential or privileged nature of the documents.

(e) In any hearing to determine a licensee's, certificate holder's, permit holder's, or applicant's fitness to practice pursuant to this chapter, any record relating to any patient of the licensee, certificate holder, permit holder, or applicant shall be admissible into evidence, regardless of any statutory privilege which such patient might otherwise be able to invoke. In addition, no such patient may withhold testimony bearing upon a licensee's, certificate holder's, permit holder's, or applicant's fitness to practice pursuant to this chapter on the ground of privilege

between such licensee, certificate holder, permit holder, or applicant and such patient. Any testimony or written evidence relating to a patient of a licensee, certificate holder, permit holder, or applicant or to the record of any such patient shall be received by the board in camera and shall not be disclosed to the public.

(f) In any hearing in which the fitness of a licensee, certificate holder, permit holder, or applicant to practice pursuant to this chapter is in question, the board may exclude all persons from its deliberation of the appropriate action to be taken and may, when in its discretion it deems it necessary, speak to a licensee, certificate holder, permit holder, or applicant in private.

(g) A person, partnership, firm, corporation, association, authority, or other entity shall be immune from civil and criminal liability for reporting or investigating the acts or omissions of a licensee, certificate holder, permit holder, or applicant which violate the provisions of subsection (a) of this Code section or any other provisions of law relating to a licensee's, certificate holder's, permit holder's, or applicant's fitness to practice pursuant to this chapter or for initiating or conducting proceedings against such licensee, certificate holder, permit holder, or applicant, if such report is made or action is taken in good faith without fraud or malice. Any person who testifies in good faith without fraud or malice before the board in any proceeding involving a violation of subsection (a) of this Code section or any other law relating to a licensee's, certificate holder's, permit holder's, or applicant's fitness to practice pursuant to this chapter, or who makes a recommendation to the board in the nature of peer review, shall be immune from civil and criminal liability for so testifying.

(h) Peer review conducted pursuant to this Code section shall be subject to the provisions of Article 6 of Chapter 7 of Title 31, relating to medical peer review groups. Any person providing information for purposes of peer review under this Code section and any person providing information to the board under this Code section shall not be criminally or civilly liable in any way for such actions unless:

(1) Such information is unrelated to the carrying out of peer review under this Code section; or

(2) Such information is false and the person disclosing such information knew that such information was false.

(i) This Code section is enacted in the public welfare and shall be liberally construed.

(j) The board shall investigate a licensee's, certificate holder's, or permit holder's fitness to practice pursuant to this chapter if the board has received a notification, pursuant to Code Section 33-3-27, regarding that licensee, certificate holder, or permit holder of a medical malpractice judgment or settlement in excess of \$100,000.00 or a notification pursuant to Code Section 33-3-27 that there have been two or more previous judgments against or settlements with the licensee, certificate holder, or permit holder relating to practice pursuant to this chapter involving an action for medical malpractice. Every licensee, certificate holder, or permit holder shall notify the board of any settlement or judgment involving the licensee, certificate holder, or permit holder involving an action for medical malpractice.

(k) The board may conduct an assessment of a licensee's, certificate holder's, or permit holder's fitness to practice pursuant to this chapter if it has disciplined the licensee, certificate holder, or permit holder three times in the last ten years as a

result of an action for medical malpractice. The assessment shall include an examination of the licensee's, certificate holder's, or permit holder's entire history with respect to practice pursuant to this chapter and a one-day on-site visit to the licensee's, certificate holder's, or permit holder's current practice location. The assessment shall be completed within six months of the third disciplinary action. As a result of its findings the board may take any action it deems necessary to reduce medical errors and promote patient safety, including revocation, suspension, or limiting the licensee's, certificate holder's, or permit holder's license, certificate, or permit or requiring additional clinical training, additional continuing medical education, proctoring, or referral to appropriate rehabilitation facilities. As used in this subsection, the term "action for medical malpractice" shall have the same meaning as provided in Code Section 9-3-70. The board shall implement this subsection upon the effective date of a specific appropriation of funds for purposes of this subsection as expressed in a line item making specific reference to the full funding of this subsection in an appropriations Act enacted by the General Assembly.

(l) If any licensee, certificate holder, permit holder, or applicant after 30 days' notice fails to appear at any hearing of the board for that licensee, certificate holder, permit holder, or applicant, the board may proceed to hear the evidence against such licensee, certificate holder, permit holder, or applicant and take action as if such licensee, certificate holder, permit holder, or applicant had been present. A notice of hearing, initial or recommended decision, or final decision of the board in a disciplinary proceeding shall be served personally upon the licensee, certificate holder, permit holder, or applicant or served by certified mail, return receipt requested, to the last known address of record with the board. If such material is served by certified mail and is returned marked "unclaimed" or "refused" or is otherwise undeliverable and if the licensee, certificate holder, permit holder, or applicant cannot, after diligent effort, be located, the executive director shall be deemed to be the agent for service for such licensee, certificate holder, permit holder, or applicant for purposes of this Code section, and service upon the executive director shall be deemed to be service upon the licensee, certificate holder, permit holder, or applicant.

(m) The voluntary surrender of a license, certificate, or permit or the failure to renew a license, certificate, or permit by the end of the established penalty period shall have the same effect as a revocation of said license, certificate, or permit, subject to reinstatement in the discretion of the board. The board may restore and reissue a license, certificate, or permit to practice under this chapter and, as a condition thereof, may impose any disciplinary sanction provided by this Code section.

(n) Subsections (a) and (b) of this Code section shall be supplemental to and shall not operate to prohibit the board from acting pursuant to those provisions of law which may now or hereafter authorize other disciplinary grounds and actions for the board. In cases where those other provisions of law so authorize other disciplinary grounds and actions but subsections (a) and (b) of this Code section limit such grounds for action, those other provisions shall apply.

(o) The board shall publish all final public disciplinary actions taken against a licensee, certificate holder, or permit holder pursuant to this chapter on its official website.

Proceedings before the board wherein a licensee's, certificate holder's, or permit holder's right to practice pursuant to this chapter in this state is terminated, suspended, or limited or wherein a public reprimand is administered shall require prior notice to the licensee and an opportunity for hearing; and such proceedings shall be considered contested cases within the meaning of Chapter 13 of Title 50, the "Georgia Administrative Procedure Act." Neither refusal of a license, certificate, or permit nor a private reprimand nor a letter of concern shall be considered a contested case within the meaning of Chapter 13 of Title 50, and notice and hearing within the meaning of such chapter shall not be required; provided, however, that the applicant shall be allowed to appear before the board, if the applicant so requests, prior to the board making a final decision regarding the issuance of the license, certificate, or permit. The power to subpoena as set forth in Chapter 13 of Title 50 shall include the power to subpoena any book, writing, paper, or document. A drug therapy protocol issued pursuant to this subsection may authorize a pharmacist to dispense a specific drug contained in the protocol as an alternative drug which is not pharmaceutically and therapeutically equivalent to the patient's initial prescription drug order and shall be deemed to be the physician's separate and distinct prescription drug order. (i) Any problems or complications encountered;

(ii) A listing of recommendations by pharmacist; and

(iii) A complete list of each instance in which drug therapy was modified and how such therapy was modified since the last report; and

(6) Stipulate that each such patient must be notified that the pharmacist is authorized to modify drug therapy pursuant to protocol between the pharmacist and the physician.

(c) A physician delegating the authority to modify drug therapy must be available through communications for consultation, assistance, and direction. A physician may only delegate the authority to modify drug therapy for a patient under the direct medical care and supervision of that physician.

(d) An order delegating the authority to modify drug therapy under this Code section shall not be valid for more than two years from the date such order was issued.

(e) Nothing in this Code section shall be construed to expand or change any existing authority for a pharmacist to substitute drugs under Code Section 26-4-81.

(f) Nothing in this Code section shall be construed to prohibit hospital pharmacists from participating in drug therapy management by protocol or other legal authority established or approved by a member of the hospital medical staff for the care and treatment of hospital patients.

HISTORY: Code 1981, § 43-34-26.3, enacted by § 43-34-25, as redesignated by Ga. L. 2009, p. 859, § 1/HB 509.

§ 43-34-26. License requirement for persons engaged in practice of medicine; qualifications; evaluation program; examinations

(a) (1) (A) Any person who wishes to obtain the right to practice medicine in this state and who was not, prior to March 16, 1970, registered or licensed to practice medicine, either by the State Board of Medical Examiners or the State Board of Examiners in Osteopathy, shall, before it shall be lawful for him or her to practice medicine in this state, make application to the board through the executive director, upon such forms and in such manner as shall be adopted and prescribed by the board, and shall obtain from the board a license to practice medicine. Any person who practices medicine without first having obtained a license shall be deemed to have violated this article. All applicants for a license to practice medicine or for a renewal of any such license which has been revoked shall furnish the board with evidence of good moral character. Applications from candidates to practice medicine or surgery in any of its branches shall be accompanied by proof that the applicant is a graduate of some legally incorporated medical school or osteopathic medical school.

(B) The board by rule or regulation may establish standards for evaluating, inspecting, and approving any medical school or osteopathic medical school. Nothing contained in this Code section shall prevent the approval of medical schools outside of the United States or the licensing of graduates of medical schools outside of the United States if such schools and their graduates comply with the standards established in this Code section and by rule of the board.

(2) Each medical school or osteopathic medical school in good standing with the board shall have a minimum preliminary educational requirement of the completion of a two-year premedical college course.

Current certification of any applicant by a member board of the American Board of Medical Specialties may be considered by the board as evidence that such applicant's postgraduate medical training has satisfied the requirements of this paragraph. However, before any such person shall be eligible to receive a license to practice medicine in this state, he or she shall furnish the board with satisfactory evidence of

attainments and qualifications under this Code section and the rules and regulations of the board. Nothing contained in this Code section shall be construed so as to require a person who has previously passed an examination given by the board for a license to practice medicine in this state to stand another examination.

(4) If the applicant submits proof that he or she has had postgraduate training as required in paragraph (3) of this subsection and if he or she furnishes satisfactory evidence of qualifications under this article and the rules and regulations of the board, he or she shall be eligible to receive a license from the board giving him or her absolute authority to practice medicine in this state.

(5) If the date of graduation from an institution mentioned in subparagraph (B) of paragraph (1) of this subsection is on or before January 1, 1967, no proof of postgraduate training in an approved hospital need be submitted to obtain a license from the board.

(b) (1) Students who have completed the academic curriculum in residence in a foreign medical school and who:

(A) Have studied medicine at a medical school located outside of the United States, Puerto Rico, and Canada which is approved by the board; and

(B) Have completed all of the formal requirements of the foreign medical school except any postgraduate training equivalent may substitute for the postgraduate training equivalent required by a foreign country an academic year of supervised clinical training (clinical clerkship) prior to entrance into the first year of American Medical Association approved graduate education. The supervised clinical training must be under the direction of a medical school approved by the liaison committee on medical education.

(2) Before beginning the supervised clinical training, the students must have their academic records reviewed and approved by the medical schools supervising their clinical training and shall pass the Educational Council for Foreign Medical Graduates (ECFMG) qualifying examination.

(3) Students who are judged by the sponsoring medical schools to have successfully completed the supervised clinical training shall be eligible to enter the first year of American Medical Association approved graduate training program without completing internship obligations required by the foreign country and without obtaining Educational Council for Foreign Medical Graduates (ECFMG) certification.

(c) For any applicant who has not passed a board approved licensing examination or a board approved specialty board examination or recertification examination within seven years of the date of application, the board shall determine, by an evaluation program established by rule, such person's fitness to resume active status and may require the person to complete a period of evaluated clinical experience and successful completion of an examination. The board may also require a licensee or applicant who is subject to discipline pursuant to Code Section 43-34-9 to take and pass a clinical competency assessment or similar examination approved by the board as a condition of licensure. Nothing contained in this Code section shall be construed so as to require a person who has previously passed an examination approved by the board for a license to practice medicine in this state to stand another examination as a condition of renewal of a current unrestricted license.

(d) The board may approve any examination or examinations that it deems must be passed in order to meet the requirements for licensure. Such examinations shall be in English. The board shall establish the passing score which all applicants for licensure shall meet or exceed. If an applicant fails for the third or any subsequent time any examination which is required to be passed in order to become a licensed practitioner in this state, the applicant shall not be eligible to retake any such examination until such applicant furnishes proof of having completed postgraduate one year of approved Accreditation Council for Graduate Medical Education (ACGME) training.

(a) (1) In order to obtain licensure as a physician assistant, an applicant shall submit an application to the board. Such application shall include:

(A) Evidence submitted by the applicant of his or her good moral character; and

(B) Evidence of his or her competency in a health care area related to the job description which, as a minimum, shall include:

The board may issue a temporary permit to any applicant for licensure who has satisfied the provisions of division (i) of this subparagraph and who is an applicant for the next available board approved or administered examination or who has completed this examination and is awaiting the results of such examination. The temporary permit shall expire upon notification of the applicant's failure to achieve a satisfactory score on the board approved or administered examination. A physician assistant licensed pursuant to this paragraph shall not be authorized to perform any medical acts of any sort except as approved for utilization by a physician in a job description pursuant to paragraph (2) of this subsection. The board may grant an inactive licensure status to a physician assistant who is licensed pursuant to this article but who is not practicing with the supervision of a board approved primary supervising physician.

(2) In order to obtain approval for the utilization of a physician assistant, whether

the utilization is in a private practice or through a public or private health care institution or organization, the licensed physician who will be responsible for the performance of such physician assistant shall submit an application to the board which shall include:

(i) Evidence that the physician assistant is licensed pursuant to paragraph (1) of this subsection;

(ii) A job description meeting the requirements of paragraph (4) of Code Section 43-34-102; and

(iii) A fee, established by the board; provided, however, that no fee will be required if the physician assistant is an employee of the state or a county government.

(b) (1) No primary supervising physician shall have more than four physician assistants licensed to him or her at a time; provided, however, that no physician may supervise more than two physician assistants at any one time except as provided in paragraph (2) of this subsection.

(2) (A) A physician may supervise as many as four physician assistants at any one time while practicing in a group practice in which other physician members of such group practice are primary supervising physicians.

(B) A physician may supervise as many as four physician assistants at any one time while acting as an alternate supervising physician:

(i) In an institutional setting such as a hospital or clinic;

(ii) On call for a primary supervising physician or a group practice; or

(iii) If otherwise approved by the board to act as an alternate supervising physician.

(3) A primary supervising physician shall designate in writing to the board such other physicians who may serve as an alternate supervising physician for each physician assistant licensed to such primary supervising physician. The board shall have authority to approve or deny such designations in whole or in part; provided, however, a physician may be listed as an alternate supervising physician for any number of physician assistants so long as he or she only supervises as many physician assistants at any one time as allowed by paragraph (2) of this subsection.

(c) (1) At all times while providing patient services, a physician assistant shall have a signed job description submitted by his or her primary supervising physician and approved by the board.

(2) Nothing in this article shall prevent a primary supervising physician from submitting to the board a new or amended physician assistant job description.

(d) A physician assistant is authorized to practice in those public or private places or facilities where the supervising physician or alternate supervising physician regularly sees patients, provided that nothing in this article shall prohibit the rendering of services to a patient by a physician assistant who is not in the physical presence of

the supervising physician or preclude a physician assistant from making house calls, performing hospital duties, serving as an ambulance attendant, or performing any functions authorized by the supervising physician which the physician assistant is qualified to perform.

(e) A physician assistant may not be utilized to perform the duties of a pharmacist licensed under Chapter 4 of Title 26, relating to pharmacists.

(e.1) (1) In addition to and without limiting the authority granted by Code Section 43-34-23, a physician may delegate to a physician assistant in accordance with a job description, the authority to issue a prescription drug order or orders for any device as defined in Code Section 26-4-5, or to issue any dangerous drug as defined in Code Section 16-13-71 or any Schedule III, IV, or V controlled substance as defined in Code Section 16-13-21 on a prescription drug order or prescription device order form as specified in paragraph (3) of this subsection. Delegation of such authority shall be contained in the job description required by this Code section. The delegating physician shall remain responsible for the medical acts of the physician assistant performing such delegated acts and shall adequately supervise the physician assistant. If an existing job description for a physician assistant does not contain such authority to order a prescription drug or device order as provided by this subsection, that physician assistant may not issue any such prescription drug or device order until a new job description delegating such authority is submitted to and approved by the board. Nothing in this Code section shall be construed to authorize the written prescription drug order of a Schedule I or II controlled substance.

(2) Nothing in this subsection shall be construed to create a presumption of liability, either civil or criminal, on the part of a pharmacist who is duly licensed under Title 26 and who in good faith fills a prescription drug or device order presented by a patient pursuant to this subsection. The pharmacist shall presume that the prescription drug or device order was issued by a physician assistant duly licensed under this article who has qualified under this Code section to prescribe pharmaceutical agents. The pharmacist shall also presume that the pharmaceutical agent prescribed by the physician assistant is an approved pharmaceutical agent, unless the pharmacist has actual or constructive knowledge to the contrary.

(3) The physician assistant shall only be authorized to exercise the rights granted under this subsection using a prescription drug or device order form which includes the name, address, and telephone number of the prescribing supervising or alternate supervising physician, the patient's name and address, the drug or device prescribed, the number of refills, and directions to the patient with regard to the taking and dosage of the drug. A prescription drug order which is transmitted either electronically or via facsimile shall conform to the requirements set out in paragraphs (1) and (2) of subsection (c) of Code Section 26-4-80, respectively. Any form containing less information than that described in this paragraph shall not be offered to or accepted by any pharmacist who is duly licensed under Title 26.

(4) The physician assistant or office staff shall notify the patient that the patient has the right to see the physician prior to any prescription drug or device order being issued by the physician assistant.

(5) Nothing in this Code section shall be construed to authorize a physician assistant to authorize refills of any drug for more than 12 months from the date of the original prescription drug or device order.

(6) A supervising physician or alternate supervising physician shall evaluate or examine, at least every three months, any patient receiving controlled substances.

(7) In addition to the copy of the prescription drug or device order delivered to the patient, a record of such prescription shall be maintained in the patient's medical record in the following manner:

(A) The physician assistant carrying out a prescription drug or device order shall document such order either in writing or by electronic means; and

(B) Except in facilities operated by the Division of Public Health of the Department of Community Health, the supervising physician shall review the prescription drug or device order copy and medical record entry for prescription drug or device orders issued within the past 30 days by the physician assistant. Such review may be achieved with a sampling of no less than 50 percent of such prescription drug or device order copies and medical record entries.

(8) A physician assistant is not permitted to prescribe drugs or devices except as authorized in the physician assistant's job description and in accordance with this article.

(9) The board shall adopt rules establishing procedures to evaluate an application for a job description containing the authority to order a prescription drug or device and any other rules the board deems necessary or appropriate to carry out the intent and purpose of this Code section or to protect the public welfare.

(10) Nothing in this Code section is intended to repeal any rules established by the board relating to the requirements and duties of physician assistants in remote practice sites.

(11) A physician assistant authorized by a primary supervising physician to order controlled substances pursuant to this Code section is authorized to register with the federal Drug Enforcement Administration.

(12) A physician assistant delegated the authority by the primary supervising physician to issue a prescription drug or device order shall be required to complete a minimum of three hours of continuing education biennially in practice specific pharmaceuticals in which the physician assistant has prescriptive order privileges.

A managed care system, health plan, hospital, insurance company, or other similar entity shall not require a physician to be a party to a job description as a condition for participation in or reimbursement from such entity.

(e.2) A physician assistant shall be allowed to request, receive, and sign for professional samples and may distribute professional samples to patients, pursuant to authority delegated by the supervising physician of that physician assistant. Delegation of such authority shall be contained in the job description required by this Code section; provided, however, the office or facility at which the physician assistant is working must maintain a list of professional samples approved by the supervising physician for request, receipt, and distribution by the physician assistant as well as a complete list of the specific number and dosage of each professional sample received and dispensed. In addition to the requirements of this Code section, all professional samples shall be maintained as required by applicable state and

federal law and regulations. As used in this subsection, the term "professional samples" means complimentary doses of a drug, medication vouchers, or medical devices provided by the manufacturer for use in patient care.

(f) A physician employed by the Department of Community Health or by any institution thereof or by a local health department whose duties are administrative in nature and who does not normally provide health care to patients as such employee shall not be authorized to apply for or utilize the services of any physician assistant employed by the Department of Community Health or by any institution thereof or by a local health department.

(g) Nothing in this article shall be construed to prohibit a physician assistant from performing those acts the performance of which have been delegated to that physician assistant pursuant to and in conformity with Code Section 43-34-23.

(h) A physician and a physician assistant may enter into a temporary practice agreement exempt from any filing fees with the board by which agreement the physician supervises the services provided by the physician assistant to patients at a specific facility or program that provides medical services only to indigent patients in medically underserved or critical need population areas of the state, as determined by the board, or pursuant to Article 8 of Chapter 8 of Title 31, provided that:

(1) Such services are provided primarily to financially disadvantaged patients;

(2) Such services are free or at a charge to the patient based solely on the patient's ability to pay and provided, further, that such charges do not exceed the actual cost to the facility or program;

(3) The supervising physician and the physician assistant voluntarily and gratuitously donate their services;

(4) Prior to providing any patient services, a copy of the temporary practice agreement, signed by both the supervising physician and the physician assistant, is on file at the facility or program and is sent to the board;

(5) The temporary practice agreement is for a specified period of time, limits the services of the physician assistant to those within the usual scope of practice of the supervising physician, and is signed by both the supervising physician and the physician assistant prior to the physician assistant providing patient services; and

(6) The facility or program has notified the board of its intent to provide patient services and utilize licensed physicians and physician assistants under the conditions set out in this subsection.

(i) (1) Notwithstanding any provision of this article to the contrary, a physician assistant licensed pursuant to this article or licensed, certified, or otherwise authorized to practice in any other state or federal jurisdiction and whose license, certification, or authorization is in good standing who responds to a need for medical care created by conditions which characterize those of a state of emergency or public health emergency may render such care that the physician assistant is able to provide with such supervision as is available at the immediate scene or at the local site where such need for medical care exists or at a relief site established as part of a state or local safety plan established pursuant to Chapter 3 of Title 38. Such services

shall be provided by a physician assistant in response to the request of an appropriate state or local official implementing a state or local emergency management plan or program, and in accordance with applicable guidelines established by such officials or plans. The authority granted by this Code section shall last no longer than 48 hours or such time as the board may establish under guidelines for supervision of the physician assistant rendering medical care.

(2) For the purposes of this subsection, the term "public health emergency" has the same meaning as in paragraph (6) of Code Section 38-3-3, and the term "state of emergency" has the same meaning as in paragraph (7) of Code Section 38-3-3.

(j) A physician assistant shall be allowed to make a pronouncement of death pursuant to authority delegated by the supervising physician of the physician assistant and to certify such pronouncement in the same manner as a physician.

(k) It shall be unlawful for a physician to be an employee of a physician assistant, alone or in combination with others, if the physician is required to supervise the physician assistant; provided, however, that this shall not apply to arrangements of this nature which were approved by the board on or before July 1, 2009. Arrangements approved prior to such date are nontransferable. Such conduct shall be subject to sanctions by the board as to the physician and the physician assistant.

ARTICLE 5. USE OF MARIJUANA FOR TREATMENT OF CANCER AND GLAUCOMA

§ 43-34-120. Short title

This article shall be known and may be cited as the "Controlled Substances Therapeutic Research Act."

HISTORY: Code 1933, § 84-901A, enacted by Ga. L. 1980, p. 82, § 1; Ga. L. 2009, p. 859, § 1/HB 509.

§ 43-34-121. Legislative intent

(a) The General Assembly finds and declares that the potential medicinal value of marijuana has received insufficient study due to a lack of financial incentives for the undertaking of appropriate research by private drug manufacturing concerns. Individual physicians cannot feasibly utilize marijuana in clinical trials because of federal governmental controls which involve expensive, time-consuming approval and monitoring procedures.

(b) The General Assembly further finds and declares that limited studies throughout the nation indicate that marijuana and certain of its derivatives possess valuable and, in some cases, unique therapeutic properties, including the ability to relieve nausea and vomiting which routinely accompany chemotherapy and irradiation used to treat cancer patients. Marijuana also may be effective in reducing intraocular pressure in glaucoma patients who do not respond well to conventional medications.

(c) The General Assembly further finds and declares that, in enabling individual physicians and their patients to participate in a state-sponsored program for the investigational use of marijuana and its derivatives, qualified physicians and surgeons throughout the state will be able to study the benefits of the drug in a controlled clinical setting, and additional knowledge will be gained with respect to dosage and effects.

(d) It is the intent of the General Assembly in enacting this article to permit research into the therapeutic applications of marijuana and its derivatives in cancer and glaucoma patients. This would allow qualified physicians approved by the Patient Qualification Review Board created by Code Section 43-34-124 to provide the drug on a compassionate basis to seriously ill persons suffering from the severe side effects of chemotherapy or radiation treatment and to persons suffering from glaucoma who are not responding to conventional treatment, which persons would otherwise have no lawful access to it. It is the further intent of the General Assembly to facilitate clinical trials of marijuana and its derivatives, particularly with respect to persons suffering from cancer and glaucoma who would be benefited by use of the drug.

(e) This article is limited to clinical trials and research into therapeutic applications of marijuana only for use in treating glaucoma and in treating the side effects of chemotherapeutic agents and radiation and should not be construed as either encouraging or sanctioning the social use of marijuana. Nothing in this article shall be construed to encourage the use of marijuana in lieu of or in conjunction with other accepted medical treatment, but only as an adjunct to such accepted medical treatment.

ARTICLE 8. ORTHOTICS AND PROSTHETICS PRACTICE

§ 43-34-190. Short title

This article shall be known and may be cited as the "Orthotics and Prosthetics Practice Act."

HISTORY: Code 1981, § 43-34-190, enacted by Ga. L. 2002, p. 1273, § 1; Ga. L. 2009, p. 859, § 1/HB 509.

§ 43-34-191. Findings of General Assembly

The General Assembly finds that the practice of orthotics and prosthetics in this state is an allied health profession recognized by the American Medical Association, with educational standards established by the Commission on Accreditation of Allied Health Education Programs. The increasing population of elderly and physically challenged individuals who need orthotic and prosthetic services requires that the orthotic and prosthetic professions be regulated to ensure the provision of high-quality services and devices. The people of this state deserve the best care available and will benefit from the assurance of initial and ongoing professional competence of the orthotists and prosthetists practicing in this state. The practice of orthotics and prosthetics serves to improve and enhance the lives of individuals with disabilities by enabling them to resume productive lives following serious illness, injury, or trauma. Unregulated dispensing of orthotic and prosthetic care does not adequately meet the needs or serve the interests of the public. In keeping with requirements imposed on similar health disciplines, licensure of the orthotic and prosthetic professions will help ensure the health and safety of consumers, as well as maximize their functional abilities and productivity levels. This article shall be liberally construed to best carry out these subjects and purposes.

HISTORY: Code 1981, § 43-34-191, enacted by Ga. L. 2002, p. 1273, § 1; Ga. L. 2009, p. 859, § 1/HB 509.

(2) All other changes to the physician profile shall be reported by the physician to the board within 30 days of the change, and the board shall verify and update the physician profile with such new information within 15 days.
